INTRODUCTION

Dark Themed 2D pack is fully hand-painted game kite that includes all necessary art elements that most of the games need this includes: Environment, Tiles, Decorations, Characters(static and animated), UI, Player HUD and much more. Currently, we are working on new animations, so make sure to check the asset store for updates. We have tried to make developers life easier so all sprites are combined into the sprite sheets.

Pack contains:

- 737 hand painted sprites sorted into sprite sheets + PSD file + grayscale versions
- sorted sprite sheets
- 8 animated characters (Idle or Walk animation version 1.0) *
- 2 particle systems
- demo scenes
- tile pallets
- prefabs
- Apk preview

* Animation includes classic Sprite animation and Bone (Spine animation) including Spine project.

VERSION

1.0 First release

CONTROLS

There are two demo scenes in this pack. Ui Scene that demonstrates options for different menu panels. And Demo Scene that demonstrates part of the environmental elements, animated characters some character HUD options. To navigate through Scene please use UI interactive elements.

SCRIPTS

There are 2 scripts in this pack all script made for a demo scene with testing purposes but you can use them in your projects.

- *Mover* - (Control Script, support manual control with arrows and automove option);
- *LevelController* script that allow scene switching.
